

CAMP FRIEDLANDER

PROJECT C.O.P.E.

Element of Danger Statement

Project C.O.P.E. (Challenging Outdoor Personal Experience) is a course designed to test mental and physical skills. As in any physical activity, there is an element of risk during the event.

If you are going to take part in C.O.P.E., you must be aware of the possibility of injury. The program consists of a series of activities. If you have any physical limitations or previous injury that could be aggravated by participation in any of the events, we recommend that you do not participate in the course. This is a *Challenge By Choice* course. In other words, you only participate in the activities you feel you can do. The director reserves the right to prevent you from participating in some events if he/she feels that you have limitations that might endanger you.

I have read the information above, and will set my own limits on participation in events.
